DIAMOND PIANO .COM

Online Assistant

DiamondPiano.Com is the perfect companion to your Diamond Piano Method books. Our comprehensive suite of lesson-enhancing materials is your online instructional and practice assistant—ready to work with you on any device, whenever you want and wherever you are!

VIDEO AND AUDIO SUPPORT:

DiamondPiano.com provides a collection over 1,000 professionally produced videos. Each concept in the Diamond Piano Method books is introduced in our instruction videos and each song is supported by Getting Started and Demo play-along videos, and downloadable audio files. Ear training exercises hone your ability to play 'by ear'. Use these tools to review or accelerate your progress at any time!

GAMES:

Our series of theory games correspond exactly with the Diamond Piano Method text, allowing students to practice their skills as they are introduced. Increase your note reading fluency, rhythmic accuracy, chord and scale building, and chord identification knowledge in a fun and entertaining way!

SELF-CHECKING TESTS:

Each randomly-generated, self-checking, prescriptive test ties directly to the new material being presented in each of the 37 Pod levels of the Diamond Piano Method text. We also cycle prior material so that concepts are always being reviewed and kept fresh. Tests are archived for future reference.

INCENTIVES:

Complete the activities and earn points which become "Gold Records" for our online incentive program, *Build a Band*. "Wake" a band member for each record you earn and hear them play! Certificates of Mastery are automatically awarded when the online activities are completed to near perfection.
